

Leishangbam Baruni Devi, MSL Centre, Mongshangei

“When this lamp is brought to the family, I find my husband to be very happy and started to help and involve in my food processing (pickles making) business specially at night. Working together with my husband for the purpose is also a rare motivation I received from him. I can save for about Rs.35 (Cost of a kerosene oil/ candles) per day. Now I can work more comfortably at night and produce more”.

She added “I would proudly say that this lamp has ushered in caring and serving my family.”
